PROJECTS

To-Do App, November 2022 - December 2022

- The To-Do React App is a simple and intuitive task management application built using React. The app allows users to manage their daily tasks efficiently by performing basic CRUD (Create, Read, Update, Delete) operations. This project aims to demonstrate the core principles of React development, including component-based architecture, state management, and handling user inputs.

Weather-App, August 2022 - September 2022

- This is a simple yet exciting game where you roll virtual dice and try your luck to win. Whether you're a beginner looking to learn programming or an experienced developer exploring new projects, this game is a fun way to practice your skills and enjoy some entertainment.

DiceGame, May 2022 - June 2022

- Dice Game is a simple yet exciting game where you roll virtual dice and try your luck to win. Whether you're a beginner looking to learn programming or an experienced developer exploring new projects, this game is a fun way to practice your skills and enjoy some entertainment.

GuessNoGame, October 2021 - November 2021

- GuessNoGame is a classic guessing game where players try to guess a randomly generated number within a specified range. It's a simple yet entertaining game suitable for players of all ages.
